INTRODUCTION

Our unique system design is pure engineering magic. Super strong, light, 40mm aluminium box rafters create slim, elegant roof profiles with excellent thermal performance.

MORE?

- No clunky bars or supports to clutter the ridgeline.
- No thick, chunky profiles dominating the glazing.
- This unique design creates a feeling of MORE SKY - LESS ROOF, giving you visible elegance to your roof design and appearance.
- Available in all RAL colours

TRULY ALUMINIUM

Our Full Aluminium construction slashes the visible width and sight lines of rafters by 30% and the main ridge by 70%, when compared to roofs made by our competitors.

The strength to weight ratio of Bespoke's profile offers dramatic spans, turning your roof into a contemporary architectural feature. Aluminium sections are finished in a choice of RAL colours removing the need to fit cheap-looking PVCu capping.

SMARTER DESIGN

Bespoke's construction options provide the perfect look roof for any property, style or scheme.

Most competitors insist on a rod tie bar at eaves beam level, but we offer a choice of hidden, rafter or rod tie supports - providing the ultimate luxury and flexibility to create the roof you want.

Extra strong rafters mean the tie bars can be set higher, guaranteeing excellent headroom and no intrusion into the living area. Even in large buildings the roof structure remains remarkably minimal, creating a sense of clear, free space under the eaves.

Increased roof strength means the design aesthetics and clear sight-lines achievable using the Bespoke Lantern system remain unmatched by any other manufacturer.

TAKE A CLOSER LOOK

The clean sharp lines with minimum intrusion are possible thanks to our super slim 40mm rafter box profile. Unless it's a Victorian style, there's even no need for a boss or hood.

Most competitors insist on a rod tie bar at eaves beam level, but we offer a choice of hidden, rafter or rod tie supports - providing the ultimate luxury and flexibility to create the roof you want.

- **The UK's most thermally efficient**
- **Aluminium roof system**
- **The UK's strongest roof system**
- **Minimalist modern design with ultra-low sightlines**
- **Ideal for orangeries and lantern roofs**
- **Clean low sight lines externally**
Available in all RAL colours
